When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.

On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.

On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.

And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand render at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1894-95, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

CALCUTTA, the 25th November 1895.

UNDER section 22 (2) of Act I (B.C.) of 1895, the Public Demand Recovery Act, the following rules have been framed by the Board with reference to the requirements of section 287 of the Code of Civil Procedure in regard to sales of property in execution of a certificate, and are published for general information :—

- I.—When the officer who effects an attachment under section 269, Act XIV of 1882, believes that the property attached does not exceed twenty rupees in value, he shall inform the debtor, or, in his absence, any present adult member of his family, that it will be sold by public auction at once, without the issue of any proclamation under section 287. In case the decree-holder or the judgment-debtor, or any person on his behalf, objects to the adoption of the course, the attaching officer will convoko a panchayat of not less than three respectable adult male inhabitants of the neighbourhood, of whom ordinarily the headman of the village should be one, and will require them to assess the value of the property. If they determine that it exceeds Rs. 20 in value, he shall deal with it under the rules framed by the Lieutenant-Governor of Bengal, otherwise he shall forthwith proceed to sell it by auction, after giving such reasonable notice, as the circumstances of the case admit of, to intending purchasers.
- II.—At the time of making an application under section 280, Act XIV of 1882, for the attachment of moveable property in the possession of the judgment-debtor, the decree-holder shall pay the costs of issuing the proclamation of sale under section 287 of the Act, unless the value of the property, the attachment of which is applied for, is alleged by him not to exceed Rs. 20 in value. In this case, should the value of the property as determined by the above rule, be found to exceed Rs. 20, the decree-holder shall pay the costs of the proclamation immediately on receipt of notice of attachment.
- III.—Sales of moveable property not exceeding Rs. 20 in value shall be held on the spot. Such sales will necessarily be conducted by peons when they are the attaching officers. Sales of moveable property of greater value may be held on the spot or at the Sadar or subdivisional head-quarters, as may seem convenient and conducive to the securing of good prices. For such sales officers of higher rank than peons should always be deputed when the value of the property is estimated to exceed Rs. 50, and proclamation should be issued. When the value is between Rs. 20 and Rs. 50, the Collector or Deputy Collector may by a special order depute a peon, if he considers it desirable to do so.
- IV.—Sales of immoveable property should ordinarily be held at the district or subdivisional head-quarters, according as the villages may be nearer to either, but sales on the spot are desirable when bids or sufficient bids cannot be obtained at head-quarters. It sometimes happens that it is only by holding sales in the villages that the property can be disposed of. When this is the case, nazirs, naib-nazirs or bakshis should be employed; but in rare instances, where the value of the property is very small and the cost of deputing a higher officer would be out of proportion to it, a trustworthy peon may be sent out under the special orders of the Collector or Deputy Collector. For all sales of immoveable property proclamation must be issued.
- V.—Sales of estates or shares of estates should always be held at the district or subdivisional head-quarters.
- VI.—In order to ensure a good attendance of bidders and fair bids, it is desirable that regular sale days, whether one or more in the month, should be fixed, and that lists of property to be put up at each sale should be published some days in advance. This arrangement cannot, perhaps, be made ordinarily at subdivisions, where sales are few and far between, but it should be introduced where the sales are sufficiently numerous and regular.
- VII.—In cases in which the decree-holder applies for leave to purchase under section 294 of the Code of Civil Procedure, no order to set off the purchase-money against the amount of the decree shall be made upon the application for leave to purchase. Such order shall be made upon a petition presented after the property has been knocked down to the decree-holder at the auction-sale, and such petition shall be stamped with stamps of the value of the poundage fee due for selling the property, viz.—
2 per cent. on the gross amount realised by the sale of the property, up to Rs. 1,000.
1 per cent. more on all excess of all gross proceeds beyond Rs. 1,000.

VIII.—Upon the hearing of such petition the costs of execution, including the amount of the stamps attached to the petition, shall be ascertained and shall be added to the decree; and in cases in which the amount of the purchase-money exceeds the amount of the decree and of such costs, the decree-holder who has so purchased the property shall pay into Court the sum of 25 per cent. upon the balance of the purchase-money after deducting the amount of the decree and of such costs, and shall pay the balance at the expiration of fifteen days in accordance with section 307 of the Code of Civil Procedure.

RANAGHAT-KRISHNAGAR TRAMWAY.

No. 334.—*Notification.*—It is hereby notified that an application has been duly made to the Local Government of Bengal by Messrs. Martin & Co., of Calcutta for and on behalf of a Company about to be formed and to be called the Ranaghat-Krishnagar Tramway Company, Limited, for sanction to the construction of a line of tramway between the right bank of the river Churni at Ranaghat (officially called the Lower Mata-bhanga) and the river Jalangi at Krishnagar, in continuation of a siding $1\frac{1}{4}$ miles long to be constructed by the Eastern Bengal State Railway on the standard gauge from the Ranaghat station to the left bank of the Churni: And whereas it appears to the Local Government expedient and proper that the said application should be granted, the Local Government, in pursuance of section 5 of the Bengal Tramways Act, 1883, makes the following Order:—

PRELIMINARY.

Short title. 1. This Order may be cited as the Ranaghat-Krishnagar Tramway Order, 1895.

2. The several words and expressions to which meanings are assigned by the Bengal Tramways Act, 1883, have in this order the same respective meanings:

Provided that in this Order the expression "the tramway" or "the undertaking" shall mean the tramway and works and undertaking by this order authorized, except where the context may require a different meaning, the expression "the Agreement" shall mean the agreement made between the Promoters and the District Board of Nadia, as set forth in the First Schedule to this order, and the words "the Act" shall mean the said Bengal Tramways Act, 1883.

3. (1) The tramway authorized by this Order shall be constructed, maintained, and worked, subject to the provisions of the Act, of the rules from time to time in force under the Act, and of this Order, and in accordance with the Agreement.

(2) No powers or rights shall be deemed to have been conferred on the Promoters or to have been relinquished by Government, except as in this Order expressly provided.

4. Messrs. Martin & Co., of Calcutta, shall be the Promoters for the purposes of this Order, and are in this Order referred to as "the Promoters," and this expression shall, except where the context may require a different construction, include the Company to be formed and called the Ranaghat-Krishnagar Tramway Company, Limited, hereafter in this Order referred to as "the Company."

CONSTRUCTION OF TRAMWAY.

5. The promoters shall construct and maintain, subject to the provisions specified in this Order, and to the Agreement made between the Promoters and the District Board, Nadia, which is set forth in the First Schedule attached to this Order, and in accordance, also, with plans and sections to be deposited by the Promoters with the Local Government, it being understood that the said plans and sections have previously received the approval of the Local Government, the tramway hereinafter described, with all proper establishments, rails, bearings, stations, offices, works, rolling stock, and conveniences connected with the tramway or required for the purposes thereof.

6. (1) Subject to any extension of time that the Local Government may see fit to grant, the Promoters shall substantially commence the construction of the said tramway within nine calendar months from the date of this Order, and shall complete and equip the same in every respect for opening and working for traffic to the satisfaction of the Local Government within eighteen months from the date of this Order.

(2) In the event of the said Promoters failing to commence the construction and to complete and equip the tramway as provided in the first paragraph of this clause, then and in any such case the Local Government shall be at liberty to revoke this Order, and the Local Government shall thereafter be at liberty to enter into any arrangements with any other person or persons for the construction of a tramway from Ranaghat to Krishnagar, and in the event of this Order being revoked by reason of the said Promoters failing to complete and equip, and open for traffic, the said tramway within the period of 18 months from the date of this Order, the Local Government shall have the option of taking over all the permanent-way and rolling-stock of the tramway at a reasonable valuation to be determined by the Local Government, and in the event of the Local Government exercising this option, all the other works and buildings of the tramway may be dealt with under the provisions of the Act relating to the discontinuance of tramways as a tramway whereof the discontinuance has been proved to the satisfaction of the Local Government.

If, however, the Local Government do not desire to exercise the option of taking over the permanent-way and rolling-stock of the tramway as herein provided, then and in such case the tramway, including the permanent-way, the rolling-stock, and all the buildings and works of every kind connected therewith, may be dealt with under the provisions of the Act relating to the discontinuance of tramways, as a tramway whereof the discontinuance has been proved to the satisfaction of the Local Government.

7. The tramway authorised by this Order is a single line, with necessary passing places to be laid within the district of Nadia from the right bank of the Churni river at Ranaghat to the left bank of the Jalangi at Krishnagar, a distance of about 19 miles on the unfinished embankment of the abandoned Ranaghat-Bhogowangola Railway line.

8. The Promoters may use for the construction of the tramway, and for the purposes of any building or erection connected therewith, the unfinished embankment of the Ranaghat-Bhogowangola Railway line and the land belonging thereto.

9. The Promoters shall, at their own cost, widen, raise or lower, whenever necessary, in accordance with the requirements of the tramway, the unfinished embankment between Ranaghat and Krishnagar of the abandoned Ranaghat-Bhogowangola Railway line.

10. The Promoters shall construct at their own cost, for the purposes of the tramway, all necessary bridges and culverts of such design and in such manner as shall first be approved by an Engineer or other officer duly appointed in this behalf by the Local Government, and shall complete the same to the satisfaction of the said officer.

11. (1) Such additional land (over and above that which the Local Government has agreed to grant free to the Promoters) as may be required by the Promoters, and sanctioned by the Local Government as necessary for the purposes of the tramway, shall be acquired by the Local Government on behalf of the Promoters under the Land Acquisition Act, I of 1894, and the cost of acquiring such land shall be met by the Promoters.

(2) The Promoters may from time to time, with the approval of the Local Government, but not otherwise, sell or otherwise dispose of any land acquired by the Local Government on their behalf, which may no longer be required for the purposes of the undertaking.

12. The tramway shall be constructed on a gauge of 2 feet 6 inches. In villages and at all level crossings of district or village roads either grooved or double rails shall be used, and, at all such places, the metal of the road shall be maintained flush with the level of the top of the rails. At all places where double rails are used, such rails shall be kept properly secured to each other by distance pieces placed at regular intervals to the satisfaction of the Government Engineer in charge of the road.

13. The siding between the Churni river and the Ranaghat station of the Eastern Bengal State Railway shall be of the standard gauge to be constructed, worked and maintained by the authorities of that line on such terms and conditions as may hereafter be specified by the Local Government.

14. Without prejudice to the powers conferred on the Local Authorities by section 14 of the Act, as regards the type of cars and carriages to be used on the tramway and the brakes and other appliances with which they are to be furnished, the standard weights and dimensions of rails, sleepers, rolling-stock, and other equipment of the tramway are to be as set forth and described in the Second Schedule attached to this order. The Local Government, however, reserves to itself the right to revise the said standard weights and dimensions, and the special sanction of the Local Government must be obtained before the materials, etc., required for the tramway are ordered.

15. The Local Government shall have the power of determining, from time to time, the situation and dimensions of all stations, station yards, offices, warehouses, houses for employes, conveniences and works to be constructed in connection with or as part of the tramway.

16. The Promoters shall, within three calendar months of being called upon by the Local Government to do so, be bound to provide at their own expense fencing on both sides of the tramway, either along the whole or any part of its length, and shall carry out and complete the work in such manner and in such time as the Local Government may direct.

17. (1) The Promoters bind themselves to provide at their own cost, and to the satisfaction of the Local Government, suitable level crossings wherever the tramway crosses district and village roads, and at such other places as the Local Government or any officer appointed by the Local Government in this behalf may, from time to time, direct.

(2) The Promoters shall, at their own cost, provide gates with gate-keepers' lodges, and shall maintain, at their own cost, gate-keepers at such level crossings or bridges crossed by the tramway as the Local Government may, from time to time, direct.

18. Subject to the previous sanction of the Local Government in each case, the promoters may hereafter from time to time make, at their own cost, such crossings, passing-places, junctions, and other works as may be required, in addition to those specified in their application for this Order or authorized by this Order, and all such works shall, when sanctioned by the Local Government, be completed to the satisfaction of the Local Government.

19. The Promoters shall, at their own cost, construct and maintain all such stations, passing-places, sidings, junctions, and all other works, in addition to those specified in or authorised by this Order, and shall also employ and maintain all such establishments, in addition to those specified in or authorised by this Order, as the Local Government may, from time to time, consider to be expedient for the safe and efficient working of the tramway, or for the convenience and safety

of the Public and of the traffic of the roadway. All such additional works shall be completed to the satisfaction of the Local Government.

MOTIVE POWER, SPEED AND SIGNALS.

20. The vehicles used on the tramway may be moved by steam power, and the outside cylinder type of locomotive may be used.

Power to be used by the tramway.

But the Local Government reserves to itself the right to order noiseless and smokeless locomotives, with running parts concealed, to be used on any portion of the tramway.

21. The speed of trains on the tramway, notwithstanding clause 6 of the agreement, shall not exceed 12 miles, without the special sanction of the Local Government. Provided always that, until the whole line is fenced on both sides, the maximum speed shall not exceed 10 miles an hour, and the engines shall be fitted with cow-catchers, and provided further that, within populous places to be determined by the Local Government, the speed shall always be limited to 6 miles an hour.

22. All the permanent and crossing stations of the tramway shall be provided with home signals, which shall be at least 20 feet in height and shall be located on the platforms. The Local Government, however, reserves to itself the right to order distant signals to be provided at the permanent and crossing stations, as well as both home and distant signals at such other stations, in addition to those referred to herein, and at such other places as may be considered necessary by the Local Government.

In thick, foggy, or tempestuous weather detector signals shall be used in addition to the ordinary day and night signals, and all signals in use on the tramway shall be constructed, worked and used in accordance with such orders as may be prescribed, from time to time, by the Local Government.

MAINTENANCE AND WORKING OF TRAMWAY.

23. The Promoters shall at all times maintain and keep in good condition and repair, to the satisfaction of the Local Government, or of any officer duly appointed in this behalf by the Local Government, all way, works, rolling-stock, and appliances appertaining to the tramway; and shall maintain the tramway, way, works, rolling-stock, and appliances, and shall work the same in such manner as will, to the satisfaction of the Government Engineer in charge of the road, avoid all risk of danger or annoyance to the ordinary road traffic.

24. The Promoters shall maintain and keep in repair, to the satisfaction of the Government Engineer in charge of the embankment, so as not to interfere in any way with the efficient drainage of the neighbouring lands, the whole of the embankment and land belonging thereto, and shall also maintain and keep in repair and thoroughly drained to the satisfaction of the Local Authorities the portions of the district roads, either metalled or unmetalled, within the tramway fenceings at places of their intersection with the tramway.

25. The undertaking and all works, stock, appliances and accounts appertaining thereto shall, at all times, be open to the inspection and examination of any persons whom the Local Government may appoint for that purpose, and the Promoters shall afford all reasonable facilities for the inspection or examination to the officer making it.

26. When, after inspection of the tramway or portion of the tramway or any rolling-stock used thereon, the officer making the inspection under clause 25 of this Order reports to the Local Government that, in his opinion, the use of the tramway or any portion thereof, or of any specified rolling-stock, will be attended with danger to the public using it, the Local Government may direct that the tramway or portion thereof be closed for the public conveyance of passengers, or that the rolling-stock so specified shall no longer be used, as the case may be.

27. When the tramway or any portion of the tramway has been closed under clause 26 of this Order, it shall not be reopened for the public conveyance of passengers unless and until it has been inspected by the officer referred to in clause 25 of this Order, and its opening sanctioned by the Local Government.

28. When the Local Government has, under clause 26 of this Order, prohibited the use of any rolling-stock, the said rolling-stock shall not be used unless and until the Local Government sanctions its use.

29. After considering the necessity for closing such portion of the tramway, as well as any objections or suggestions that may be made by the Promoters, the Local Government may direct that the Promoters shall close the said portion of the tramway for such a period of time, and under such conditions, as in the circumstances of the case may appear necessary.

(2) The Promoters shall be bound to comply with such directions and allow the work referred to therein to be carried out: Provided that, unless otherwise directed, any portion of the tramway which it may be necessary to remove in order to carry out such work shall be removed and reinstated by, or at the expense of, the Local Government, or the person or persons at whose instance the work is carried out: And provided also that the Promoters shall, if they are, at the time the Local Government either interferes with or stops

the working of the tramway under the first paragraph of this clause, paying any rent to the Local Authority for the use of road, receive an abatement of such rent proportionate to the length of road over which and to the time during which the working of the tramway is stopped.

30. In the event of the Promoters desiring that any bridge, drain, culvert, water-course, telegraph line, or other thing whatsoever on or adjacent to the land to be used for the tramway should be removed or the position thereof altered, the Promoters shall give notice in writing to the Local Authority, who shall thereupon deal with the matter themselves if within their powers, and, if not, shall refer the matter to the Local Government or other authority competent to deal with it, who shall pass such orders thereon as in the circumstances of the case may appear fit.

31. When from accident or flood, or by reason of the execution of any works under the provision contained in clause 29 of this Order, or when, from any other reason, it is in the opinion of the Local Government necessary or expedient to remove or discontinue the use of the tramway or any part thereof, the Promoters may, subject to such conditions and in accordance in all respects with such regulations as the Local Government may, from time to time, make, construct and maintain, so long as occasion may require, a temporary tramway in lieu of the tramway or part of the tramway removed or discontinued.

32. The Promoters shall not, without the consent in writing of the Government Engineer in charge of the road or of the Local Authority, as the case may be, cut down or lop any tree growing along or by the side of the embankment, provided that in case of emergency the Promoters may remove or lop the branches or any portion of a tree which projects or hangs in such a manner as to be a source of danger or impediment to the tramway traffic.

33. Any road metal or material excavated by the Promoters from the embankment or any road, in the construction or maintenance of the tramway, may be applied by them in or towards reinstating the said embankment or road, or in or towards completing any work thereon required by this Order.

34. The Promoters may stack materials for the construction or maintenance of the tramway within the limits of the boundaries of the embankment, but the same shall be stacked in such a manner as, in the opinion of the Government Engineer in charge of the road or of the Local Authority, as the case may be, will not impede or endanger the traffic on the said embankment.

35. Should experience appear to the Local Government to prove that police are required at some or all the stations on the tramway, the Secretary of State for India in Council shall provide and maintain for the preservation of law and order such a force of police as the Local Government may consider necessary. Three-tenths

of the cost of any police so provided and maintained, including incidental expenses appertaining thereto, shall be borne by Government, and the remaining seven-tenths by the Promoters or by the Company.

TRAFFIC AND TRAFFIC WORKING.

36. The tramway may be used for the purpose of conveying passengers, passengers' luggage, animals, goods, minerals, and parcels. Provided that nothing in this clause shall be taken to restrict the right of the Local Authority by bye-laws made under section 26 of the Act to prohibit the carriage or conveyance of persons or animals suffering from any contagious disease or of goods declared to be dangerous or offensive.

37. At the outset the Promoters shall charge on the tramway the same rates and fares as are, for the time being, charged by the authorities of the Eastern Bengal State Railway for the conveyance of passengers and goods over similar lengths of the railway, and the same terminal charges as are at the date of this order charged by the authorities of the railway at the Sealdah station on its goods traffic, with the proviso that no terminal charges shall be levied on any traffic passing through the junction at Ranaghat. The goods classification in force from time to time on the Eastern Bengal State Railway will be strictly observed on the tramway.

Full control over charges of all kinds for the use of the tramway is reserved to the Local Government.

38. The Promoters shall run as many trains daily as are necessary for the convenience of passengers and goods in each direction of the tramway, unless, owing to accident or other cause, they establish to the satisfaction of the Local Government their inability to do so, and shall bind themselves to carry with reasonable despatch to the satisfaction of the Local Government all passengers and goods seeking transport by the tramway with the exceptions referred to in clause 36.

39. Provision shall be made in all trains for two or more classes of passengers.

40. (1) During foggy weather, every train shall exhibit a red tail-light and two red side-lights in rear of the train, and every engine running alone, during foggy weather, shall exhibit at least one red tail-light.

(2) The same train and engine lights shall also be used when any train runs with the sanction of the Local Government between sunset and sunrise.

41. If permanent signals are provided only at the crossing and terminal stations, one engine only in steam shall be allowed on each section of the tramway.

When one engine only to be on each section of the tramway.

and every such engine so working shall carry a board (bolted and not hung) on each side, stating in large characters that such engine is only to run between the stations to be named thereon.

42. All wagons used on the tramway shall be provided with lever brakes, ^{Brakes and Brake-vans.} working wood-blocks on the wheels, and all engines and brake-vans shall be provided with screw brakes acting on all the wheels. There shall be at least one brake-van, with a person in charge of it, attached to each train.

43. The Promoters shall not, as between members of the public, make or ^{Prohibiting undue preference.} give any undue or unreasonable preference or advantage to, or in favour of, any particular person or company, or any particular description of traffic, or subject any particular person or company to any undue or unreasonable prejudice or disadvantage. The Local Government shall have absolute power, for the purposes of this clause, to decide whether any preference, advantage, prejudice or disadvantage is undue or unreasonable.

MISCELLANEOUS.

44. In the event of its being necessary, under the authority of the Local Government, for any railway or tramway line other than that referred to in this ^{Crossing of tramway by any railway or other tramway.}

Order to cross the tramway on the level or otherwise, the Promoters shall not be competent to raise any objection, provided that such reasonable expenses as may be shown to the satisfaction of the Local Government to have been incurred by the Promoters, on account of any interference with the tramway that may be necessary for such crossing, shall be borne by the administration of the railway or tramway authorised to cross.

Provided that the Local Government shall have absolute power, for the purposes of this clause, to decide the question as to the reasonableness of the expenses incurred by the Promoters on account of the interference with the tramway.

45. In case it hereafter be found that any portion of the alignment adopted by the Promoters for the tramway interferes with the location of any new line of railway, or the extension of any existing line of railway, the alignment occupied by the tramway shall be forthwith, at the request of the Local Government, abandoned in favour of the railway, and the tramway shall be diverted in such way and in such manner as shall appear to an Engineer or other officer duly appointed in this behalf by the Local Government to be fair and proper, provided that the actual cost of constructing such diversion shall be borne by the authorities of the said railway.

46. If the Promoters fail in any respect to comply with any of the provisions of clause 6 of section 15 of the Act, and the ^{Penalty for breach of Section 15 of the Act.} Local Authority shall find it necessary or desirable to do anything or incur any expense to remedy any such failure on the part of the Promoters, all expenses so incurred shall be, on demand, repaid to the Local Authority by the Promoters, and

the certificate of the Chairman for the time being of the Local Authority shall be conclusive evidence that all expenses referred to in such certificate were so incurred, and the said Promoters shall not be at liberty to dispute the same.

47. In the event of any work required by the Act or by this Order to be done by the Promoters not being done by them, the Local Government may ^{On Promoters' default works may be executed by Local Government.} cause a notice to be served on the Promoters requiring them, within a period to be prescribed in the said notice, to execute the said work; and if within the period so prescribed such requisition is not complied with, the Local Government may cause such work to be done and the cost thereof shall be recoverable from the Promoters. The certificate of the Government Engineer or other officer in charge of such work shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work, and the Promoters shall not be at liberty to dispute the same.

48. The Promoters shall adopt and apply all such improvements in the tramway and in the rolling-stock and appliances thereon as the Local Government ^{Improvements may be directed by the Local Government.} may from time to time consider necessary or desirable for the safety or convenience of the public.

49. (1) The Promoters shall not have power to transfer the undertaking, ^{Transfer of Tramway.} except with the previous sanction of the Local Government and on such conditions as may be approved by the Local Government.

(2) No transfer of the undertaking or any part thereof will be permitted—

(i) to any person or persons other than a Company; or

(ii) under or in respect of which any consideration is to be paid to the Promoters or to the Company; or

(iii) under or in respect of which any consideration is to be paid to the Promoters or to the Company in excess of the amount of such expenses as may be shown to the satisfaction of the Local Government that the Promoters or the Company have actually incurred in connection with the undertaking.

50. The Promoters shall provide, without unreasonable delay, such statistics relating to the tramway ^{Statistics.} or to the traffic thereon as may from time to time be required by the Local Government.

51. It is to be distinctly understood that no concession granted under this Order confers on the Promoters any exclusive right as carriers over any part of the tract traversed by the tramway. In the ^{Concession in this Order gives Promoters no exclusive right as carriers on the road traversed by the tramway.} event of the Government determining to make a standard gauge railway between Ranaghat and Krishnagar, it shall be open to the Government to purchase the Tramway outright under the

terms specified in paragraph 8 of the Agreement between the District Board and the Promoters referred to as the first schedule, as made clear in clause 55 of this Order.

In the event of a disagreement between the Company and the District Board on this latter point, the matter shall be referred to the Government Engineer, whose decision shall be final.

55. For the purposes of clause 8 of the Agreement, the expression 'average net annual profits to the Company' shall represent the actual net profits, excluding share of surplus profits payable to Government under clause 7 of the Agreement, and shall include such sum or sums as may have been paid by the District Board in accordance with clause 4 of the Agreement.

56. With reference to clause 10 of the Agreement, the remuneration which may be paid by the Company to the Agents shall either consist entirely of a commission on the net profits, or else of a commission on the net profits plus a fixed payment, provided that in the latter case the fixed payment shall in no instance exceed the sum anticipated to be paid as commission. The amount and the precise form of the remuneration shall be decided by the Board of Directors as constituted under clause 9 of the Agreement. The maximum angle of curvature should only be worked to in special cases where the adoption of an easier curve would be impracticable or involve considerable extra expense. Under very exceptional circumstances, where it may appear necessary that this rule should be relaxed, the matter should be referred to the Government of India for orders.

The maximum angles of curvature given above do not apply to curves in station yards.

II.—BALLAST AND PERMANENT-WAY.

<i>Ballast—</i>					Ft. In.

At the Court at Osborne House, Isle of Wight, the 30th day of July, 1868.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.—Whereas it is enacted by the Merchant Shipping Act Amendment Act, 1862, that “whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers, and thereupon it shall no longer be necessary for such ships to be remeasured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers in the same manner, to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships.”

And whereas it has been made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships now in force under “The Merchant Shipping Act, 1864,” have been adopted by the Government of the United States of America, with the exception that no deduction from the gross tonnage of such ships specified in the registers or other national papers thereof, is made for crew space in sailing vessels, and for crew space and engine-room in steam-vessels, and such rules are now in force in that country, having come into operation on the 1st January, 1865.

Her Majesty (in pursuance and exercise of the powers hereinbefore mentioned) is hereby pleased, by and with the advice of Her Privy Council, to direct that the merchant ships of the said United States of America the measurement whereof shall, after the said 1st of January, 1865, have been ascertained and denoted in the registers and other national papers of such ships testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships, after making therefrom the same deductions in respect of crew space and engine-room as would, if such ships were British, be made from their gross tonnage under the laws relating to British ships.

At the Court at Windsor, the 19th day of March, 1883.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.—Whereas by the “Merchant Shipping Act Amendment Act, 1862,” it is enacted that, whenever it is made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act have been adopted by the Government of any foreign country, and are in force in that country, it shall be lawful for Her Majesty, by Order in Council, to direct that the ships of such foreign country shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers; and thereupon it shall no longer be necessary for such ships to be remeasured in any port or place in Her Majesty's dominions, but such ships shall be deemed to be of the tonnage denoted in their certificates of registry or other papers in the same manner, to the same extent, and for the same purposes in, to, and for which the tonnage denoted in the certificates of registry of British ships is to be deemed the tonnage of such ships.

And whereas it was made to appear to Her Majesty that the rules concerning the measurement of tonnage of merchant ships for the time being in force under the principal Act had been, with certain exceptions, adopted by the Government of the United States of America, and Her Majesty by Order in Council, dated the 30th day of July, 1868, was pleased to direct that the merchant ships of the said United States of America the measurement whereof should, after the 1st January, 1865, have been ascertained and denoted on the registers and other national papers of such ships, testified by the dates thereof, should be deemed to be of the tonnage denoted in such registers or other national papers, in the same manner, and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such

ships, after making therefrom the same deductions in respect of crew space and engine-room as would, if such ships were British, be made from their gross tonnage under the laws relating to British ships.

And whereas the Government of the said United States of America have provided that, on and after the 5th day of August, 1882, a deduction from the gross tonnage of every vessel of the United States shall, on measurement or remeasurement thereof, be made for crew space in sailing ships, and for crew and engine space in steam-ships.

And whereas it has been made to appear to Her Majesty that, in consequence of such last recited provision, the rules concerning the measurement of tonnage of merchant ships now in force under "The Merchant Shipping Act, 1854," have been adopted by the Government of the United States of America, with the exception of a difference in the mode, in certain steamers, of estimating the allowance for engine-room, and such rules are now in force in that country, having come into operation on the 5th day of August, 1882, and that it is desirable that the ships of the said United States, measured or remeasured as aforesaid, on or after the said 5th day of August, 1882, shall, instead of requiring remeasurement in the United Kingdom for crew space in sailing ships, or for crew and engine space in steam-ships, be deemed to be of the tonnage denoted in their certificates of registry or other national papers.

Now, therefore, Her Majesty is hereby pleased, by and with the advice of Her Privy Council, to direct as follows:—

1. As regards sailing ships: that merchant sailing ships of the said United States of America, the measurement whereof after the said 5th day of August, 1882, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steam-ships: that merchant ships belonging to the said United States of America, which are propelled by steam or any other power requiring engine-room, the measurement whereof shall after the said 5th day of August, 1882, have been ascertained and denoted in the registers and other national papers of such steam-ships, testified by the dates thereof, shall be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, and to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificates of registry of British ships is deemed to be the tonnage of such ships. Provided, nevertheless, that if the owner or master of any such American steam-ship desires the deduction for engine-room in his ships to be estimated under the rules for engine-room measurement and deduction applicable to British ships, instead of under the American rules, the engine-room shall be measured and the deduction calculated according to the British rules.

C. L. PEEL.

At the Court at Balmoral, the 3rd day of October, 1895.

PRESENT:

THE QUEEN'S MOST EXCELLENT MAJESTY IN COUNCIL.—Whereas by an Order in Council, dated the 30th July, 1868, made by Her Majesty in exercise of the powers conferred upon Her by the Merchant Shipping Act Amendment Act, 1862, Her Majesty was pleased to direct that the merchant ships of the United States of America the measurement whereof should after the 1st January, 1865, have been ascertained and denoted on the registers and other national papers of such ships, testified by the dates thereof, should be deemed to be of the tonnage denoted in such registers or other national papers in the same manner, to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships, after making therefrom the same deductions in respect of crew space and engine-room as would, if such ships were British, be made from their gross tonnage under the laws relating to British ships.

And whereas by another Order in Council, dated the 19th March 1883, made in exercise of the aforesaid powers, Her Majesty was pleased to direct as follows:—

1. As regards sailing ships: that merchant sailing ships of the United States of America the measurement whereof after the 5th August 1882, has been ascertained and denoted in the registers and other national papers of such sailing ships, testified by the date thereof, shall be deemed to be of the tonnage denoted in such registers and other national papers in the same manner, to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British sailing ships is deemed to be the tonnage of such ships.
2. As regards steam-ships: that merchant ships belonging to the United States of America, which are propelled by steam or any other power requiring engine-room, the measurement whereof shall, after the said 5th day of August, 1882, have been ascertained and denoted in the registers and other national papers of such steam-ships, testified by the dates thereof, shall be deemed to be of the

tonnage denoted in such registers or other national papers in the same manner, to the same extent, and for the same purpose in, to, and for which the tonnage denoted in the certificate of registry of British ships is deemed to be the tonnage of such ships. Provided, nevertheless, that if the owner or master of any such American steam-ship desires the deduction for engine-room in his ship to be estimated under the rules for engine-room measurement and deduction applicable to British ships instead of under the American rule, the engine-room shall be measured and the deduction calculated according to the British rules.

And whereas by Section 84 of the Merchant Shipping Act, 1894, it is enacted that, whenever it appears to Her Majesty the Queen in Council that the tonnage regulations of that Act have been adopted by any foreign country, and are in force there, Her Majesty in Council may order that the ships of that country shall, without being remeasured in Her Majesty's dominions, be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, to the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

And whereas it has been made to appear to Her Majesty in Council that the tonnage regulations of the Merchant Shipping Act, 1894, have been adopted by the United States of America, and such regulations are now in force there, having come into operation on the 1st day of April, 1895.

And whereas there still are or may be ships belonging to the United States of America to which the hereinbefore recited orders of the 30th July, 1868, and the 19th March, 1883, may respectively apply, and it is expedient not to revoke the same, but to let the said recited orders remain in force so long as there are any ships to which the same may so respectively apply.

And whereas the provisions of Section 1 of the Rules Publication Act, 1893, have been complied with.

Now, therefore, Her Majesty, in pursuance and exercise of the powers hereinbefore mentioned, is hereby pleased, by and with the advice of Her Privy Council, to direct that the merchant ships of the United States of America the measurement whereof shall, after the 1st day of April, 1895, have been ascertained and denoted in the registers and other national papers of such ships, shall be deemed to be of the tonnage denoted in their certificates of registry or other national papers in the same manner, in the same extent, and for the same purposes as the tonnage denoted in the certificate of registry of a British ship is deemed to be the tonnage of that ship.

The following are the conditions of sale:—

1.—The opium will be sold for exportation by sea only, and no certificate will be granted except to cover such export.

2.—The opium will be ordinarily offered for sale at an upset price of Rs. 800 per chest, and sold to the highest bidder above that price, except under the circumstances for which provision is made by clause 13 of these conditions of sale. The bids must advance by Rs. 5 at a time.

3.—The sale shall commence at the hour of 11 A.M. of the day fixed by previous notification, and shall not be continued after the hour of 5 P.M.; but if at that hour any of the lots advertised for sale shall remain unsold, the sale may, at the discretion of the Board of Revenue, be resumed on the next day following (not being Sunday or a public holiday), at the hour of 11 A.M., and so on until the whole of the remaining lots are disposed of; or, if the whole quantity advertised shall not be sold on the day appointed, the Board of Revenue may dispose of the lots which remain on hand at a future sale.

4.—Each lot shall contain five chests.

5.—A Promissory Note for a sum, calculated according to the scale, noted in the margin, shall be taken as a deposit on each lot from the purchaser in the sale-room and before the lot is registered in the sale-book, and all such Promissory Notes shall be redeemed on the part of the purchasers at this Office by Bank of Bengal receipts or by substitution of other public securities of the Government of India, on or before 3-30 P.M., in the afternoon of the fifth day after the sale, provided it does not fall on a Saturday; if it falls on a Saturday, the said notes must be redeemed by 1-30 P.M., or, on the other hand, failing such redemption by the time aforesaid, then the lot or lots for which no Bank of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

DEPOSIT.
When the amount bid is less than Rs. 1,200 per chest, Rs. 200 per chest.
On bids of Rs. 1,200 and upwards, but less than Rs. 1,600 per chest, Rs. 300 per chest.
On bids of Rs. 1,600 and upwards, but less than Rs. 2,000 per chest, Rs. 400 per chest.
And so on, Rs. 100 being added to the deposit for every bid additional, to the extent of Rs. 400.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 P.M. of the fifth day following the day of sale, or 1-30 P.M., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to

any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 P.M. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 P.M.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his or her.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1894-95, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

E. H. WALSH,
Offy. Secretary.

The 16th December 1895.—In continuation of the notification of the 12th April 1887 and the notification of the 3rd September 1894, No. 3831J., the following revised rules, regarding the administration of the District Chaukidari Reward Fund, which have been prescribed by the Lieutenant-Governor of Bengal under the authority vested in him by section 65 of Act VI (B.C.) of 1870 as amended by Acts I (B.C.) of 1871, 1886, and 1892, are published for general information:—

1. The District Chaukidari Reward Fund constituted under section 42 of the Act, shall be treated in accounts as an Incorporated Local Fund, and the receipts and charges dealt with in accordance with the instructions contained in chapter 16 of the Civil Account Code.

2. The assets of the Fund will ordinarily consist of (a) fines and penalties levied under sections 8, 27 and 38, and (b) such sums as may be contributed to it by Government.

3. The Magistrate of the district shall be the administrator of the Fund.

(1) All bills against the Fund will be signed by him, the charges being regulated by the ordinary budget rules.

(2) He will also estimate for the receipts and charges of the Fund in the usual way, and submit such estimates along with his other estimates to the Accountant-

General, who will deal with them like other estimates in accordance with the budget rules.

- (3) The estimates will include any contribution required from Provincial Revenues, but such contribution cannot be drawn and credited to the Fund, except with the authority of the Accountant-General under special orders of Government in each case.

4. Subject to the provisions of section 3A, the power to fine chaukidars departmentally under section 38 is vested in the District Magistrate. A copy of every order passed under section 8 or 38 by any officer to whom the District Magistrate has delegated his powers under section 3A, shall be forwarded at once to the District Magistrate. On receipt thereof the particulars shall be entered in Register A prescribed by rule 8.

5. An appeal from any order imposing a fine under section 8 or 38 and passed by any officer other than the District Magistrate shall lie to the District Magistrate if lodged within 30 days from the date on which such order was communicated to the panchayat or chaukidar fined. Subject to the provisions of section 64, no appeal shall lie from any such order passed by the District Magistrate.

6. (a) All fines imposed under sections 8 and 38, and penalties imposed under section 27, and realised by a tahsildar appointed under section 46A, shall, on realisation, be at once deposited in the District or Subdivisional Treasury to the credit of the District Chaukidari Reward Fund by means of duplicate chalans.

(b) Penalties under section 27 realised by panchayats should be entered in their Register II (as prescribed by Rule VIII of the rules issued in the notification of the 12th April 1887), and sent at the close of each quarter to the officer in charge of the police-station, who will grant a receipt for the amount and deal with it under the preceding clause of this rule.

7. The Treasury Officer will retain one of the chalans and return the other, duly receipted, to the official depositing the money, who will forward it, together with the fine statements prescribed by rule 9, for entry in the accounts of the Fund.

8. Two registers, A and B, in the forms given in the appendix, shall be kept in the office of the District Magistrate (or of the District Superintendent of Police) showing the details of the operation of the above rules.

9. One clear week before the date fixed for the quarterly payment of chaukidars' salaries, the District Magistrate shall send to the officer in charge of each police-station a consolidated statement showing the fines recoverable from the chaukidars of such station. The officer in charge thereof shall thereupon at the time of the payment of salaries realise such fines and forward them under duplicate chalans for credit in the District or Subdivisional Treasury, together with any sums received by him from panchayats or tahsildars as penalties levied under section 27 of the Act. On receipt from the treasury of the duplicate chalans referred to in rule 7, he will return them, with the fine statement above mentioned to the Magistrate with an explanation of his inability to recover any particular fine, or part thereof.

10. (a) The only officers authorised to grant rewards to chaukidars are District Magistrates, Subdivisional Magistrates, and District Superintendents of Police.

(b) Such rewards should not ordinarily exceed the sum of Rs. 5, but the District Magistrate may, if the state of the Chaukidari Reward Fund justifies it, sanction a reward of not more than Rs. 25. For any amount exceeding Rs. 25 the sanction of the Commissioner should be obtained.

(c) Rewards should, wherever possible, be paid by the District Superintendent in person, and in his absence by an officer not lower in rank than an Inspector. They should, as a rule, be presented at chaukidari parades, and in all cases with as much publicity as possible.

11. Rewards should ordinarily be given for—

- (ii) Seizure or recovery of stolen property.
- (iii) Arrest of offenders or absconders.
- (iv) Personal courage shown in resisting dacoits or in capturing thieves or other offenders.
- (v) Meritorious conduct not included in the above clauses which the District Magistrate, with the concurrence of the Commissioner, considers deserving of a special reward.

12. Fifteen days from the last day of each quarter the office of the District Magistrate (or of the District Superintendent of Police) shall prepare, in the form marked (C) in the appendix, an abstract account of the transactions of the Chaukidari Reward Fund during the said quarter. Such account shall be audited and compared with the Treasury accounts by an officer nominated for the purpose by the District Magistrate, to whom the result of such audit shall be duly certified. The abstract account shall also be checked and compared with the memorandum showing the balances and accounts of the Fund which the Accountant-General furnishes each quarter to the Administrator of the Fund.

of Bengal receipts or deposit of other public securities as aforesaid shall have been delivered in, shall be re-sold at such time or times and under such conditions of re-sale as the Board of Revenue shall see fit; and all losses and expenses whatsoever attending such re-sale shall be borne and paid by the defaulters, whilst any profit accruing from such re-sale shall be forfeited to Government.

6.—The said Promissory Notes shall be absolutely payable in any event, and the amount thereof shall be absolutely forfeited upon such default as before mentioned, and the amount thereof shall not go or be credited in reduction of any loss on re-sale or expenses thereby incurred, but shall be recoverable whether such re-sale shall be had or not, or whether there shall be a loss on such re-sale or not.

7.—The Promissory Notes taken on the day of sale under the fifth condition, if remaining unredeemed at 3-30 p.m. of the fifth day following the day of sale, or 1-30 p.m., if the last day falls on a Saturday, will be placed in the hands of the Solicitor to the Government for realization in such manner as to him shall seem fit.

8.—No tender of money, Bank of Bengal Receipts, or public securities, on account of opium upon which the prescribed deposit may not have been made before the prescribed time in clause 5 on the fifth day following the day of sale will be afterwards accepted. Provided always that money so subsequently tendered may be taken in payment of the said Promissory Note, but such acceptance of money shall in no way entitle the payer thereof to any right to delivery of the lot or lots in respect whereof the said note was given, or to any of the rights of a purchaser thereof, or release the payer from liability for any unpaid balance of such notes or from the additional liability for the loss and expenses of such re-sale as provided for in clauses No. 5 and No. 6.

9.—The opium advertised for sale shall be paid for not later than by 3-30 p.m. of the fifteenth day from the day of sale, provided it does not fall on a Saturday; if it falls on a Saturday, the opium must be paid for by 1-30 p.m.; and in case any lots of such opium shall not be so paid for and adjusted, then the cash deposit made under the fifth condition, or any public securities that may have been deposited on account of such lots or chests, shall be forfeited, and the opium shall be disposed of on account of Government at such time and in such manner as the Board of Revenue shall think fit; and the first purchaser shall further be required to make good all expenses and any loss or difference of price between that obtained at the re-sale and the amount at which the opium was first purchased, forfeiting all advantages that may arise from such re-sale, and the liability for the loss or difference of price and expenses shall be in addition to, and wholly independent of, the amount of the deposit so forfeited.

10.—Purchasers taking out certificates or orders for the delivery of opium, after making full payment as above prescribed, shall have the option of naming the number of lots of their purchase, which they may desire to be included in each certificate or order; and it is to be clearly understood that the certificates or orders so taken out shall be considered final, and not afterwards changeable for other certificates or orders authorizing the delivery of single lots, or of a different number of lots or chests, whether more or less, than the number of lots or chests originally required to be included in each certificate or order.

11.—No deposit of public securities under the fifth of the present conditions will be received in this office except from the party recorded as the purchaser in the sale-book, or his authorized agent. The receipt for deposit of public securities will be granted only in the name of such purchaser, and the securities so deposited will be returned when payment in full has been made by the said purchaser or his order.

12.—The officer superintending the sale on the part of the Government is empowered to reject, at his discretion, the bid of any individual, unless such individual shall on demand tender at the time a deposit either in Government of India Notes, Bank of Bengal Receipts, or Government Securities, a sum equal to the amount for which a promissory Note would otherwise be taken under the fifth of these conditions.

13.—With a view to prevent fictitious biddings designed to obstruct the sale, it is hereby notified that the officer of Government superintending the sale shall be competent, at any time during the sale, to withdraw any unsold lot, and immediately to put it up again for sale.

at a maximum upset price, diminishing the same gradually by Rs. 5 at a time until a bid is obtained; and the first *bond fide* bidder for a lot after it has been offered for sale in the mode here described shall be held and declared to be the purchaser of the said lot, and the officer of Government Superintending the sale shall also be competent to dispose, in the same manner, of as many of the subsequent lots as he may think proper, provided always that no lot shall be sold below the minimum price of Rs. 800 specified in the second of these conditions.

14.—The purchaser of any lot shall have the option of naming and purchasing in immediate succession, at the same price and under the same conditions, any number of lots of the same Agency opium not exceeding altogether twenty-five lots, provided always that there remain a sufficient number of lots of the opium to complete the said twenty-five.

15.—In the event of any dispute or difference touching or concerning any matter or question arising out of the sale of the opium included in this notification, or adjustment of the account thereof, the same shall and may be tried and decided in the High Court of Judicature at Fort William in Bengal.

16.—The following papers will be exhibited for inspection on the day of sale, or may be seen previously to that date by personal application at the Office of the Board of Revenue:—No. 1, certificate of the opium advertised for sale; No. 2, report of the examination of such opium.

17.—The public are hereby informed that in providing the investment of the opium manufactured at the Patna Factory and the opium manufactured at the Ghazipur Factory for the year 1894-95, the same precautions have been taken as those which have been observed during past years to have the drug procured and sent down in a pure state, to have only the prescribed quantity of leaves used in forming the cakes, and to have the due proportion of opium put into each cake. An account of the weight of the drug when packed at the Patna and Ghazipur Factories, and a statement of the average weight of the chests, indiscriminately taken, for the purpose of comparison, from the despatches on arrival at Calcutta, may be seen on personal application at the Office of the Board of Revenue.

18.—Any further information respecting weight or quality of the opium advertised for sale, that may be desired by parties connected with the trade, will, as heretofore, be furnished to them on personal application at the Office of the Board of Revenue. But, in accordance with established usage, under no circumstances will the Board of Revenue entertain or recognize any claim to compensation for loss from any alleged deficiency of weight, abstraction of opium, or adulteration of the drug, which may be preferred on reference to chests after the sale and delivery of the opium for shipment.

Subject to the provisions of rule 23, contributions are not to be levied on salaries drawn in respect of temporary appointments. The contribution of an officer or servant on leave is to be calculated on his leave allowance, and, if in the acting arrangements made in consequence of his absence any substitute be appointed who holds no substantive appointment in the Municipal service, a deduction shall be made from the pay of such substitute equal to the additional contribution which such officer or servant on leave would have been subjected to if he had not been on leave.

12. Subject as hereinafter provided, a pension or gratuity shall, on his retirement or discharge from Municipal service, be payable to every officer or servant who, having contributed under these rules on Scale B, shall have been duly certified under rule 15 as incapacitated for further service, or whose services shall have been dispensed with in consequence of reduction or reorganization of establishment, and not from any fault of his own. An officer or servant whose services shall have been dispensed with in consequence of reduction or reorganization of establishment, and not for any fault of his own, and who has not completed 5 years' service, shall be entitled to a refund of the total amount of his contributions with simple interest at 4 per cent.

13. An officer or servant drawing more than Rs. 10 a month who has attained the age of 55 years shall be required by the Chairman to apply for a Superannuation Pension, or to retire from Municipal service, unless the Commissioners in Meeting sanction his retention for a definite term in Municipal service on the ground of marked and special efficiency. Any officer or servant may be required by the Chairman to apply for an Invalid Pension, if the Chairman has reason to think that he is incapacitated for further service.

Compulsory retirement on attaining 55 years of age or becoming incapacitated.

14. Save as in this rule expressly provided, no pension or gratuity shall be payable to any officer or servant who shall voluntarily resign the Municipal service before the age of 55 years (unless duly certified under rule 15 as incapacitated for further service), or to any officer or servant who shall be dismissed from the Municipal service for misconduct, nor shall any such officer or servant voluntarily resigning or being dismissed as aforesaid be entitled to any refund of contributions therefore made by him under these rules. Provided, however, that the Commissioners in Meeting may, if

circumstances shall, in their opinion, render it just or proper so to do, treat any particular case as a special case, and by special resolution allow an officer or servant who has voluntarily resigned or been dismissed as aforesaid to receive such pension or gratuity as they may think proper, not exceeding the limits prescribed by rule 17.

15. Every officer or servant who shall apply for permission to retire from Municipal service on Invalid Pension or gratuity shall be examined by the Health Officer, and unless the Health Officer shall certify that the applicant is incapacitated for further service, and the cause of such incapacity and that such incapacity is not due to the applicant's own misconduct, his application for pension or gratuity shall be disallowed. If the applicant is dissatisfied with the Health Officer's examination, he shall be at liberty to submit himself for examination by a Commissioned Medical Officer at the Presidency at his own cost, and a certificate from such Commissioned Officer may be accepted in lieu of the certificate from the Health Officer. Provided, however, that if at the time of making such application, the applicant is unable through illness or absence from India to attend for examination by the Health Officer, a similar certificate by a duly qualified surgeon or physician, countersigned by a Justice of the Peace, Magistrate, Judge, Notary Public or Municipal Commissioner of Calcutta may be accepted in lieu of the certificate of the medical authority.

16. Applications for permission to retire on pension or gratuity shall be disposed of by the Commissioners in Meeting, who may take into consideration any representation made by the applicant for extension of service in cases where the applicant has been required by the Chairman to apply. Every such application shall be addressed to the Chairman by whom the same will be submitted to the General Committee, accompanied by—(1) a register of service in a form to be prescribed by the Chairman, (2) the certificate prescribed by rule 15 in cases in which such certificate is necessary, and (3) a certificate from the Chairman specifying the period for which the applicant has served, and the Chairman's opinion as to whether the applicant's character and conduct have been such as to render him deserving of the pension or gratuity applied for. Should the Chairman be of opinion that the applicant's character or conduct have not been such as to render him deserving of the full pension or gratuity applied for, he shall recommend such lower rate of pension or gratuity as he shall think fit. The Commissioners in Meeting, in disposing of such applications, shall have regard to the rates for pensions and gratuities prescribed by rule 17.

Applications for pension, &c., to be disposed of by General Committee, and to be submitted through the Commissioners.

The term "average salary" means the average calculated upon the last five years of service.

(a) A gratuity in lieu of pension shall be payable to an officer or servant entitled to gratuity on the A scale who shall have completed five years' service, but shall not have completed ten years' service. Such gratuity shall be calculated upon the basis of the average monthly salary during the preceding five years of service of the officer or servant applying for gratuity, and shall be equal to one month's salary calculated on that basis for each completed year of service, subject, however, to the maximum limit of nine months' salary so calculated.

(b) Provided, however, that, in calculating the average monthly salary of an officer or servant for the purposes of this rule, any reduced salary which he may have received while on leave shall not be taken into account, but the average shall be calculated as if such officer or servant had, while on leave, been in receipt of the salary of his appointment which he was drawing immediately before taking leave, and provided also that in the case of an officer or servant who, during the last five years of his service, has, through no fault of his own, drawn a diminished salary, the average shall be calculated on the monthly salary of such officer or servant during those five consecutive years of his service in which his salary may have been highest.

18. Every Municipal servant or officer who may be eligible to contribute and qualify for a pension or gratuity under rules 2 and 3 shall be entitled to three months' official notice before his services are dispensed with, and if he shall not receive such notice, he shall be entitled to a gratuity not exceeding his salary for the period by which the notice given to him falls short of three months, in addition to any retiring pension or gratuity to which he may be entitled.

Every Municipal servant or officer on a temporary establishment who is not eligible for pension or gratuity, shall, if he has been in Municipal employ for 12 months, be entitled to

one full month's notice before his services are dispensed with, or in lieu of notice to a gratuity not exceeding his salary for the period by which the notice falls short of one month. Provided that such temporary service is not for a fixed term, or for the performance of any defined work, in which cases no notice shall be necessary.

19. Future good conduct is an implied condition of every grant of a pension. The Corporation reserves to itself the right of withholding or withdrawing a pension, if the pensioner be convicted of serious crime or be guilty of grave misconduct.

20. Pensions shall commence from the date of retirement or discharge, but if an officer or servant to whom a pension is payable shall be on leave and unable to rejoin his appointment, his pension shall commence from the date of the medical certificate under rule 15, if such certificate is required; otherwise from such date as the Commissioners in Meeting shall direct.

21. In calculating the period of service of an officer or servant for the purposes of rule 17, privilege and casual leave admissible under the Leave Rules shall count as service, but no other sort of leave shall count.

22. Service in order to count for pension or gratuity must be continuous. Provided (1) that periods (if any) of leave which under rule 21, would not count as service shall not be deemed to constitute breaks of service, so as to prejudice the continuity of the service preceding and subsequent to such leave, and (2) that should an officer or servant whose services have been dispensed with, or who has resigned, be re-employed, it shall be in the discretion of the Commissioners in Meeting to condone the break in his service and to allow his former service to count. Provided that he has not received any pension or gratuity, in respect thereof, or that, if he has received any such pension or gratuity, he refunds it with or without interest as the Commissioners in Meeting shall determine.

23. Subject to the provisions of rule 22, if any portion of the previous service of a Municipal officer or servant, who is admitted to contribute under rules 5, 6 and 7, has been in an office or appointment paid for out of capital or in a temporary or officiating appointment, such previous service shall count towards pension, provided that he pays contributions on the salary drawn during such service from the date of commencement of such service in such instalments as the Chairman thinks proper.

24. Periods of service before the age of 20 years shall not count towards pension or gratuity, but this rule shall not have retrospective effect.

25. In case an officer or servant shall be suspended pending an enquiry into his conduct and shall thereafter be reinstated, it shall be in the discretion of the Commissioners in Meeting to determine whether such suspension shall or shall not constitute a break in the service of such officer or servant.

26. Every pension shall be payable monthly if the pensioner resides in India or quarterly if he resides out of India. Every pension shall be payable to the pensioner in person, or, in case of inability on account of illness or absence from Calcutta to attend personally, to some person duly empowered either by power-of-attorney or otherwise, as the Commissioners may direct, to receive the same. Provided that in the last-mentioned case the person so empowered must, on the occasion of each payment, produce and deposit with the Chief Accountant a certificate signed by a Magistrate, Justice of the Peace, Notary Public, Municipal Commissioner of Calcutta, or other official to be approved by the Commissioners, certifying that the Pensioner is personally known to him, and was seen by him alive on or after the date on which the pension becomes payable.

COMPASSIONATE ALLOWANCES.

27. In case an officer or servant who is a contributor under these rules shall die while in the Municipal service after he shall have completed five years' service, a compassionate allowance equivalent to a gratuity of one month's pay for every year of service up to a limit of 12 months' pay shall be paid to or for the benefit of his widow and children, or in case he shall have left no widow or children to or for the benefit of his parents, brothers and sisters, if any, if dependent on him for support.

The length of service and amount of gratuity due shall be calculated according to rules 21 and 17(a).

In like manner in case a pensioner shall die before he shall have received full twelve months' pension, any balance of such pension up to twelve months shall be paid to or for the benefit of his widow and children, or in case he shall have left no widow or children, to or for the benefit of his parents, brothers and sisters, if any, if dependent on him for support.

Provided that nothing in this or any of the foregoing rules contained shall be deemed to preclude the Commissioners in Meeting in their absolute discretion from granting a compassionate allowance to any officer or servant (whether eligible or ineligible to contribute and whether he has contributed or not) who may have been permanently disabled or seriously injured in the discharge of his duties, or to the widow and children, or, in case he shall have left no widow or children, to the parents, brothers and sisters of any of such officer or servant who may have been killed in the discharge of his duties.

GENERAL.

28. All disputes and doubts arising on the construction of, or otherwise in connection with, these rules shall be referred to the General Committee for decision, subject to confirmation by Commissioners in Meeting.

Disputes and doubts on the construction of the rules to be decided by General Committee.

MUNICIPAL AND LOCAL.

NOTIFICATION.

No. 613T.-M.—*The 27th September 1895.*—It is hereby notified for general information that, in accordance with the recommendation of the Commissioners of the Gaya Municipality, made at a meeting, and in exercise of the power conferred on him by section 9 of the Bengal Municipal Act III of 1884, as amended by Act IV of 1894, the Lieutenant-Governor intends to include within the limits of the aforesaid Municipality the whole bed of the river Phalgu from bank to bank, stretching from Bahadurgirmath on the north to the southern boundary of Ghugritand on the south, unless good reasons are shown to the contrary within six weeks from the date of the publication of this notification within the Municipality.

H. H. RISLEY,
Secy. to the Govt. of Bengal.

NOTIFICATION.

No. 636T.M.—*The 3rd October 1895.*—It is hereby notified for general information that the Lieutenant-Governor has been pleased to make the following rules for the preparation, submission, and execution of projects for water-supply or drainage by local authorities under section 69, sub-sections (2) and (4) of the Bengal Municipal Act, 1884, and section 138, sub-sections (c) and (m) of the Bengal Local Self-Government Act, 1885 :—

1. When a local authority desire to undertake a project for water-supply or drainage, they should, in the first place, take measures to draw up a sketch of the project, showing how it is to be carried out and what will be, roughly speaking, the approximate cost.

2. As regards the preliminary surveys required for the preparation of any project of water-supply or drainage, the local authority must either employ their own permanent officials or apply to the Sanitary Engineer to procure for them competent persons specially for the work. The Sanitary Engineer cannot himself ordinarily perform the work of making rough surveys, but he will act as the adviser of the local authority, and will, as far as practicable, engage surveyors for them if they desire it, and will, if instruments are available, lend them to local authorities on payment of the prescribed fee. If any maps of surveys are prepared in the Sanitary-Board's office, a fee will be charged, fixed so as to cover, on an average, the actual expenses incurred.

3. When a sketch project has been drawn up, an application must be addressed to the Municipal Department of Government, accompanied by a statement of the approximate cost, and the funds available for meeting it, either from current revenue or by way of loan.

4. The proposal will be considered by the Municipal Department, and administrative sanction will be given if the Government is satisfied—

First, that the work projected is really required, and that the advantage to health which it is expected to ensure is commensurate with the probable cost.

Second, that the scheme is financially sound, i.e., that the local authority can meet the cost from revenue or can arrange to repay the loan within thirty years at the prescribed rate of interest.

Third, that it is sound from an engineering point of view, i.e., that the work can be done effectually in the manner and for the cost proposed.

5. The Sanitary Board will be consulted (if any doubt exists) on the first and third points before approval is given; and if the rough or approximate estimate has not been furnished by the Sanitary Engineer, it will be checked by that officer.

6. When administrative sanction has been given, and in no case before, the local authority may arrange for the preparation of detailed plans and estimates, and in doing this may follow one or other of the following courses:—

- (a) the plans and estimates may be prepared by their own officers;
- (b) application may be made to the Sanitary Engineer for assistance in the selection of competent surveyors to carry out the work;
- (c) application may be made to the Sanitary Board for the services of the Sanitary Engineer;
- (d) application may be made to the officers of the Public Works Department employed in the district or Division for assistance and advice;
- (e) with the previous sanction of the Sanitary Board, the work may be entrusted to a private firm of established reputation.

In cases (a), (b) and (e) the Sanitary Engineer or other officer appointed for the purpose may, with sanction of the Sanitary Board, be required to examine and criticise the plans and estimates while in course of preparation.

In case (c), if funds are available, the Sanitary Engineer, with the sanction of the Sanitary Board, may be required to draw up the detailed plans and estimates of the schemes.

7. When the plans and estimates have been completed, they will be forwarded to the Sanitary Board with a full report on the financial aspects of the scheme, and the state of public feeling in regard to it, and, if a loan is needed, with an application in the prescribed form. The Sanitary Board will then submit the plans, report and application to the Municipal Department with an expression of their opinion on the merits of the scheme as finally drawn up.

8. In the case of works estimated to cost Rs. 10,000 or more, the sanction of Government will be contingent on adequate provision being made for detailed engineering supervision. In the absence of special sanction to the contrary, the local authority must agree to such one of the following conditions as may be considered suitable in each case:—

- (a) that the works shall be carried out by the Public Works Department if that Department can undertake them. In such cases an extra charge of 15 per cent. on the sanctioned estimate will be made for supervision, unless the case is one of extraordinary difficulty, in which case a higher charge may be imposed by the orders of Government; or
- (b) that arrangements shall be made with the District Board for the work to be carried out by the District Engineer and his staff; or
- (c) that the works shall be carried out under the supervision of an Engineer specially employed for the purpose, who must hold a certificate of qualification as a District Engineer according to the rules under the Bengal Local Self-Government Act III (B.C.) of 1885.
- (d) that the works shall be carried out by a private engineering firm of established reputation subject to the conditions—
 - (1) that no contract shall be entered into by the local authority without the previous sanction of the Sanitary Board; and
 - (2) that the works while in progress shall be periodically inspected by the Sanitary Engineer, or other officer appointed for the purpose.

9. In the case of works costing less than Rs. 10,000, the local authority should report, for the information of the Commissioner of the Division, the agency by which they propose to have the works carried out, and should follow the instructions issued by him in the matter.
